

Buy Local.

Keep your money in Michigan. Don't let your medical monitoring service be answered out-of-state.

EMS LIFE LINK alerts go to a local 9-1-1 ambulance call center in Southeastern MI.

EMS LIFE LINK

Why EMS LifeLink?

- Calls answered in Southeastern MI
- Doesn't require a landline
- Supports local non-profit ambulance services
- Licensed emergency medical dispatchers assess your symptoms and can give self-help instructions to you or loved ones
- Enjoy a monthly newsletter
- Our LifeLink technicians are local, too

Retired Plymouth Police Chief Bob Scoggins, one of our technicians, installs an EMS LifeLink unit.

EMS LIFE LINK

Trust your loved one to
EMS LIFE LINK

EMS LIFE LINK is a medical alert system designed to assist you quickly in a medical emergency.

Instant access to help 24/7.

Your call is answered quickly by certified emergency medical dispatchers in our local ambulance call center. Our dispatchers know how important it is to use a physical location, **not** a mailing address, when sending help.

Our dispatchers also notify your designated emergency contacts when appropriate. If you cannot respond to our dispatchers, EMS is sent to check on you.

Many people feel that having EMS LifeLink means "I'm getting older and giving up my independence." But EMS LifeLink actually promotes independence and peace of mind for you **and** your loved ones.

We're your local EMS LifeLink team!

When every second counts.

A simple push of a button gets you the medical attention you need. The faster you reach 9-1-1, the faster help gets to you, giving you the best chance to survive and minimize permanent disability.

EMS LifeLink Call Button

■ Wear around your neck or wrist, allowing your hands to be free

■ Small, lightweight and waterproof – can be worn in the shower

Button signal range up to 400 feet (may vary due to environmental factors)

EMS LifeLink Monitors

■ Two-way speaker with high-volume setting

■ Monitor works with landline or as a stand-alone wireless device

■ Talk and listen hands-free

■ Reminders for medication and appointments

■ Low battery and other alerts

■ 24-hr. rechargeable battery back up

Note: Systems may not work with all Voice Over Internet Protocol (VOIP) phone lines.
